

Federal AI Solution Factory

Accenture Federal Services and Google Public Sector recently launched our Federal AI Solution Factory: a collaborative hub to rapidly prototype innovative and impactful AI-powered solutions for federal agencies, housed within our joint [Data & AI Center of Excellence \(CoE\)](#).

Delivering solutions across the federal government

Improve citizen services and enhance operational efficiency

Empower data-driven decision making across mission domains

Unlock insights from complex data to combat fraud

Modernize legacy IT systems and applications across the enterprise

“ This partnership underscores our commitment to turning a vision for AI into reality, developing and deploying the most innovative and impactful solutions for federal clients. ”

- Denise Zheng, Chief AI Officer and Data & AI Lead, Accenture Federal Services

Accenture Federal Services delivers **experience in human-centered design**, industry expertise, and the ability to translate Federal mission needs into **real-world AI and analytics solutions at scale**.

Google Cloud's comprehensive tech stack offers the **latest AI and data analytics capabilities** for Federal agencies, including Google's **large language models, Vertex AI platform, and secure AI infrastructure**.

AI in action across the federal government

Together, Accenture Federal Services and Google Public Sector, support agencies in using AI to achieve their mission goals:

Enhanced tracking accuracy and accelerate insights at a federal logistics agency

Modernized customer service with AI-powered virtual agents for a federal financial agency

Turbocharged document examinations at a large federal agency through Google AI and Search

Boosted cloud security at a DoD client with Google Distributed Cloud

Your Rapid Innovation Partners

Accenture Federal Services and Google Public Sector's Rapid Innovation Team provides dedicated resources to rapidly prototype AI solutions for complex federal government use cases. Bring us your problems, we'll build you a solution.

To get started, please reach out to Denise Zheng and Michael Zeller.

The AI Federal Solution Factory builds upon Accenture Federal Services and Google Public Sector's joint [Data and AI Center of Excellence](#) and [Cybersecurity Centers of Excellence](#), delivering transformative AI solutions that are built responsibly and securely for the federal government.

About Accenture Federal Services

We empower the federal government to solve challenges, achieve greater outcomes, and build a digital core that is agile, smart, and secure. Our 15,000+ people are united in a shared purpose to advance our clients' mission-critical priorities that make the nation stronger and safer, and life better for people.

About Google Public Sector

Google Public Sector partners with government agencies and educational institutions to create stronger communities through digital transformation, security, and cutting-edge technology.
